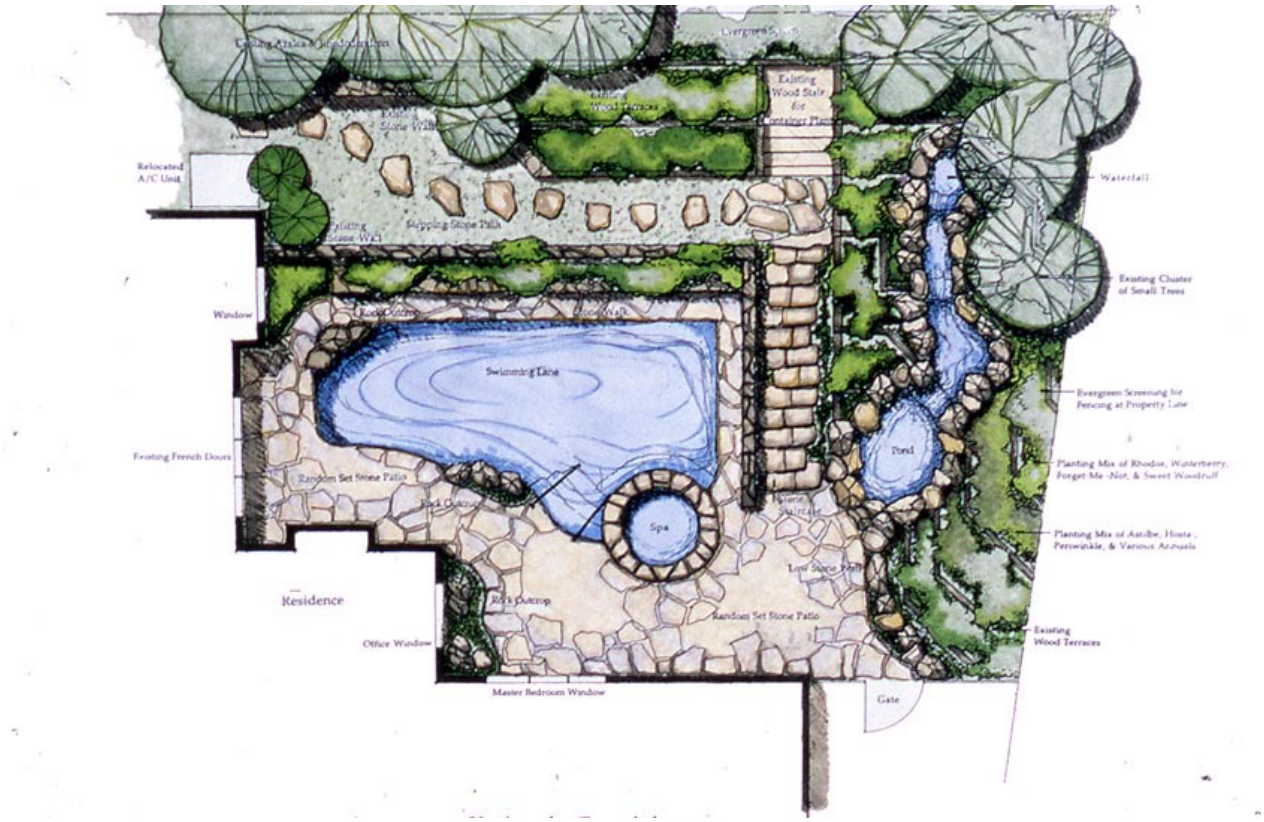
RESIDENCE, Roanoke, Va.

Project completed at Hill Studio Role: Project Landscape Architect



Project Information: The owner of this southern home wanted to make the back-yard accessible for a wheelchair and to add a pool for therapeutic and recreation-al use. New plantings were added to the terraced hillside and an informal waterfall was created to provide interest and a focal point from the house.

Budget: $115,000

Size: 1.0 Acre

Year Constructed: 1997
