

TWO RESIDENCES, Needham, Ma.

Project completed at Johansson Design Collaborative Role: Project Landscape Architect

Project Information: The developer of this project requested a landscape design that increased sense of privacy between the homes, and also integrated them into the existing surrounding neighborhood. The back patios are offset to provide for more buffer planting along the fence. Planting beds are located at the perimeter to soften the views into the site.
 Year Constructed: 2005
 Budget: \$65,000

Holly D. Ben-Joseph, Landscape Architect
