

PRIVATE RESIDENCE

La Costa, CA

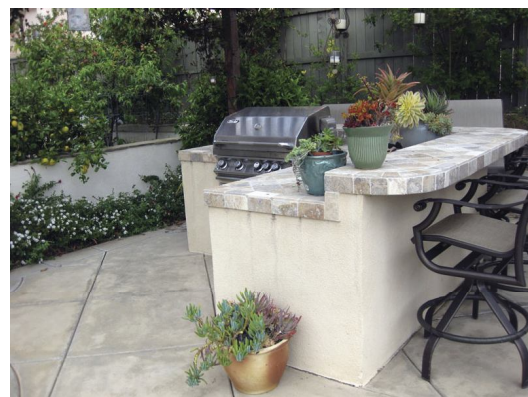

Project Information:

With strict community regulations regarding water use and fire protection setbacks, the landscape design artfully combines the owner's goals with the regulations. The resulting design for the rear yard centers on a stone-edged pool. Mediterranean plantings soften the paved areas of the deck area, provide shade and help to define sub-areas. A trellised bar area and fire pit are situated at either end of the pool.

The Mediterranean palette is extended to the front entry, with native stone walls, randomly patterned pavers and colorful, drought tolerant plantings.

Year Constructed: 2007
