

UNIVERSITY CANYON HOUSING, San Diego, Ca.

Project completed at RDI&A Role: Project Landscape Designer

Project Information: Landscape design services for this Southern California housing development included a network of paths through the canyons linking residences to various amenities such as a public pool, and a trailhead to the adjacent nature area, and public areas at the front of the homes. Stormwater is handled through dry stream beds located on along the paths.

Year Constructed: 1985-87

Holly D. Ben-Joseph, Landscape Architect
